Calls Up the Dudley Affair in the Senate and Will Speak on It To-morrow.

W. Dudley on a charge of violating the laws at the last presidential election. Mr. Voorhees will call up and speak on the resolution to-morrow.

SAN FRANCISCO, Jan. 7.—Mike Kelly and wife left Sunday night for Boston via Los Angeles. White, Hurley, Radburn, Daily, and Richardson left yesterday morning for the east by the same route, and Manager Hart, Nash, and the balance of the Bostons will leave Thursday.

It looks as if the base ball has "heodooed" the town, for rain has fallen almost incessantly since the company arrived; in consequence they are not "in" many dollars by their California trip. The Browns will leave in a few days, going via Portland, Salt Lake and Denver.

A GIGANTIC SCHEME.

A Land and Improvement Company to be Organized With an Object to Boom the City.

To-night, at the rooms of the Tri-State Building and Loan association, an effort will be made to organize the Fort Wayne Land and Improvement company, for a gigantic purpose.

Hearing that Messrs. F. P. Randall and D. N. Foster were interested in the projected organization, a SENTINEL reporter interviewed them to-day. Said Mr. Foster:

"Yes, sir; the company will be organized to-night."

"What will your capital stock be placed at?"

"The capital stock will be $300,900."

"What will be the object and intention of the company?"

In substance Mr. Foster stated that already options have been secured for the company on property as follows:

One hundred and eighty acres belonging to Mrs. Luree, situated immediately opposite the new Columbia street bridge, the purchase price being $75,000.

One hundred and sixty acres known as Stephen C. Taber's piece, just north of Luree's.

Three hundred and twenty-five acres belonging to Fred Hayden, and situated northeast of Taber's, extending to St. Joe river.

Also an option on the Mrs. Henry Hanna's farm of 160 acres, and other pieces. It is proposed to start a park and boulevard at the new bridge, the boulevard to extend down along the east bank of the Maumee river. Out near the powder houses on the Maysville pike will be a lake to cover thirty-two acres. The boulevard, too, will extend along the banks of the lake and through the Hayden and Taber groves and around to the St. Joe river. Bordering upon this continuous boulevard will be a park varying in width and embracing in all 150 acres.

It is the object of the company to do all of this and then upon the remainder of the ground lay out lots—city lots, too, for the company expect to have their property annexed. Whoever acquires lots must build upon them, and such dwellings as are erected must be put up at a specified cost sufficient to assure a handsome as well as comfortable structure.

This little villa will also have street cars and electric lights.

The land in question has charming surroundings and is conveniently located to the commercial center and yet just distant enough to escape the excitement of the city. The company would positively do the city a great benefit to accomplish the end they are seeking.

At the meeting to-night a large number have been invited. Mr. Foster said, as he left the reporter, "Please say that this meeting is open to every citizen who desires to attend."

There will no doubt be a large attendance.

TWO SORE HEADS.

Charles and John Hummell, employed by Byron S. Thompson, in South Wayne, got into a brotherly fight yesterday, which was not brotherly by any means.

They were arrested by Marshal Spencer, who arraigned them before 'Squire Flick, who very promptly assessed a fine of $5 and costs, with some stern advice thrown in.

Reports as to the loss of life differ, one statement being that fourteen of the crew were drowned and four escaped, another being that ten of the crew in two boats are missing. There is no yacht Inva in Lloyd's yacht register. The wrecked vessel may be the schooner yacht Incaia, which sailed December 17 from Southampton for Marseilles.

Week of Prayer Observed by Grace Church.

Cottage prayer meeting this evening at the home of Mr. Peter Kline, Bloomingdale, 32 East street.

Wednesday evening at the church.

Thursday evening at Mr. John Vordermark's, 301 East Washington street.

Friday evening, at the home of Mr. F. D. Paulus, 222 West Wayne street.

THE phonograph has not yet been reduced to that simplicity and perfection of operation necessary for its general sale and introduction. It is true several examples have been produced which are in use, and many interesting experiments have been made. At the Paris exhibition the instruments were shown in operation, and the perfection of the results in recording and delivering speech was marvelous. But in most cases, in order to get really satisfactory results, experts are required to watch, adjust and work the instrument. When the phonograph becomes entirely automatic its future is assured.

THE scheme of the Hungarian Government, already in operation, of buying up taverns throughout the country and turning them into school-houses will be watched with interest in all countries. Of course it comprehends certain paternal measures which could be practiced only in monarchical countries, but it is a bold and interesting experiment in social science, none the less. The government evidently buys up the places for a valuation fixed by a commission and then suppresses them. The endeavor has a noble ring to it, and was evidently suggested by a humanitarian of most practical turn.

NELLIE BLY, the New York World's correspondent who is making a trip around the world in eighty days, is advertised to pass through Fort Wayne about the 26th of this month.

THE women of Steubenville, O., had the performers of just such a show as exhibited last night at the Temple arrested and fined last week for giving an indecent exhibition on the stage.

IT is said that there is a movement to colonize negroes in Oklahoma. Fully 4,000 negroes are already located in the new territory. The purchase of the Cherokee strip for settlement by negroes is also being agitated.

PASTOR SIMS' sermon on dancing, some of the points of which were given in last evening's SENTINEL, created considerable comment. The lovers of the dance do not relish the attacks made on their favorite amusement.

A REPORT is current among Roman Catholics of New York city that another cardinal's hat is to be soon bestowed by Pope Leo upon an American prelate. The rumor originated in the west, coupled with the suggestion of Archbishop Ireland, of St. Paul, as the next cardinal.

THE president is handing out postoffices at the rate of fifty a day, at least that was his record yesterday. The bunch of appointments is always greater on Mondays than at any other time. Why is this? Does the president study over their merits and party service on the Sabbath day?

GENERAL SPINNER, ex-treasurer of the United States, now ninety years of age, writes from Jacksonville, Fla., to Citizen George Francis Train, to say that he is sorely afflicted. He is almost blind. He says: "Can just see with great effort to write, but can't see to read my own writing."

FIFTEEN years ago William Guthat, a Frenchman, suddenly disappeared from LaPorte, leaving considerable property. Recently a peddler appeared at LaPorte, claiming to be Guthat, and is taking steps to secure the property, which his wife deeded some years ago to one Cumro. Mrs. Guthat is a victim of intermittent insanity.

IT has been suggested by a clever inventor that the big-hat-at-the theatre problem can be solved by a very simple mechanical device. In the ceiling of the audience room, over each seat, have a little spring roller like the reel on a fishing rod. On this have a line at the end of which hangs a pair of self-acting nippers. When the curtain goes up an automatic arrangement will set each spring roller in action, the nippers will descend and grab the big hats, and presto change! every one will be snapped up to the ceiling and remain suspended there until the close of the performance, when they will descend and settle on the owners' heads.

THE SENTINEL sends its greeting to the ex-prisoners of war who are holding a meeting in this city to-day. The brave soldier boys who suffered in southern prisons are entitled to the hospitality of our city and they will receive it. All honor to them, we say. They will talk over the scenes of their prison and army life and will have a royal time at their banquet this evening.

A REPORT is expected in congress this week from the Silcott committee upon the facts and law of the case, giving the conclusions of the committee upon the question of the location of responsibility for the cashier's shortage. This report is quite likely to lead to an extended debate which may keep the house occupied until the committee on ways and means suspends its public meetings.

CARSON LAKE, whose death as a drunkard in Pueblo, Col., was noted in our telegraph columns yesterday, was at one time a minister of the gospel at Pierceton, on the Pittsburg road, near Warsaw, this state. He was a brilliant young man and rum worked his ruin then. He reformed and lived a useful life for years, but at last fell a victim to its fascinating influence. His life is a temperance lesson more powerful than any orator could speak it.

GENERAL CASSIUS M. CLAY, the late Colonel Goodloe's great uncle, has a record with the knife which is noteworthy even for a Kentuckian. He had three personal encounters before the war in which knives were used, and in each case he succeeded in killing his opponent. A fourth victim he cut almost to pieces, but the man was stitched up and recovered. A few years ago he killed a negro who had insulted him, again using the knife. Governor Warmoth, of Louisiana, saved his life in New Orleans a few years ago by vivisecting with a knife a man who attempted to assassinate him.

THERE is less complaint in Indiana, especially in this city, than formerly in regard to the scarcity of holidays. A few years ago there were but three—Fourth of July, Thanksgiving and Christmas—but others have been added, and more are to follow. In the roll of states Nebraska has the fewest legal holidays, as there are none established by statute, while Louisiana has the most, and celebrates January 1, New Year's day; January 8, anniversary of the battle of New Orleans; February 22, Washington's birthday; Mardi Gras; March 4, firemen's anniversary; April 20, Good Friday; July 4, Independence day; Thanksgiving day; Christmas day.

A REMINISCENCE.

An Actor Recalls Incidents of Edwin Forrest, the Tragedian.

Edwin Forrest, a few years before his death, was playing an engagement in a circuit which included Kansas City and St. Joseph, Mo. Milton Nobles, who was a member of the supporting company, relates the following, which conveys a capital idea of the "old man's" ghoulish humor. In Kansas City, the old fashioned tormentor door had a bottom moulding about five inches high, which was too much by about three inches, for the tragedian's gouty feet and legs. However, it was a stationary affair, nailed to the floor, and receiving his cue, he worked his left foot out in good shape, but in attempting to drag the right after it, he was'nt so successful, and stumbled on the stage and was caught on the fly by the leading man. Those who were familiar with the great tragedian's peculiarity in his latter years, can readily imagine the unique specimens of suppressed vocal pyrotechnics which followed the incident. The following night the company played in St. Joseph.

The Night Owls gave a clean show at the Temple, much to the chagrin of some few, who expected it to be otherwise. The costumes were rich and handsome, the grouping good and the specialties enjoyable. The show did not have the audience it deserved. The party left for Findlay to-day.

Charles Erin Verner will present "Shamus O'Brien" at the Temple Friday next. It has been two years since Verner has visited Fort Wayne, and his many admirers will anxiously await his advent.

Seats are now on sale for Miltou Nobles in his successful American play, "From Sire to Son." Mr. Nobles has achieved a genuine success in this play, and a big house should greet him.

N. S. Wood comes to the Temple Saturday next in "Out in the Streets."

He was well dressed, and while Mrs. Miller was preparing his meal he took a pocket book contatning $15 in cash and a check for $45. The theft was not discovered until some time afterward, and the villain made good his escape.

Harry Hunter, of Spencer township, Harrison county, was captured on the highway near his home a few nights ago by a band of "White Caps," and tied to a sapling and soundly beaten, the alleged reason for the punishment being that the victim failed to provide for his family. Hunter denies the charge and states that he has always provided for his family. Several of the White Caps were recognized, and will be reported at the next sitting of the grand jury.

ORPHAN RUNAWAYS.

They Escape From the Knightstown Home and Arrive in this City.

Last night three youngsters, ranging in ages from 12 to 14 years, appealed to the keeper at Liggett's livery stable for lodging. The little fellows were lightly clad so the kind-hearted stableman gave them a nice warm bed on a pile of straw.

This morning they were handed over to the authorities. They gave their names as Alfred Smeads, Johnnie Wise and Otto Campbell. According to their own story they had run away from the Soldiers and Sailors Orphans Home at Knightstown, to see the world. Their trip to this city was made by stealing rides on freight trains and walking, and they concluded that they had seen about all of the world they cared to until they grew older and wiser.

The trio was given into custody and the authorities at Knightstown informed of the whereabouts of the runaways.

Smead's home was at Auburn, Wise's at Knightstown, and Campbell's at Muncie.

The superintendent will send a man to take the boys back or will instruct the sheriff who is caring for them.

The best examples of still life are in the "moonshine" districts of the south.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past obliges us to admit that only one remedy has met these conditions, and that is Ely's Cream Balm. This pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms yield to it.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

THE MYSTIC CIRCLE.

The Supreme Deputy in the City to Organize a Lodge.

Next Friday evening, a lodge of the Mystic circle will be organized in this city.

Mr. R. L. Stoughton, of Columbus, Ohio, who is district supreme deputy of the order, arrived in the city last night and is now engaged with several interested gentlemen in getting things in shape.

The order will have a fraternal insurance feature and the prospects are favorable for completing a successful organization.

WILL HAVE PAVEMENTS.

The Council to Go Into the Question Without Delay.

The question of paving the streets has been agitated so freely and the necessity for it has become so manifest that the councilmen from the different wards are preparing issues to appeal in behalf of such improvements to the citizens in their respective wards.

The next meeting of the council will be an interesting one on this account.

The civil engineer's office has been besieged from time to time by persons discussing this very important matter.

Councilmen Cran and Bandt, of the Sixth ward, are sanguine that they will get a pavement on West DeWald street, while other councilmen are equally assured of success.

Councilman Read, of the Third ward, said to a SENTINEL reporter to-day: "There is no question but that the city will have new pavements. She must have them."

"Do you think the question will come to an issue with the council soon?" asked the reporter.

"I do; and very soon, too."

If the city is to have new pavements it is probable that the fire brick will have a consideration among the rest. It is said to be cheap and durable.

IT is dangerous to let a man die in a hotel in Paris. A queer French law enables the landlord to present his bill to the relatives for the death. Seven hundred francs was the item recently demanded from an American family for the decease of one of its members in a well-known hotel. This extortion would have been three times as great if the person had died of a contagious disease, and doubled if the deceased was a prince or a member of any rich old aristocratic family. The allowances by the judges, however, are generally much less than the claims of the landlords.

IN an address to a workingmen's organization Mr. Gladstone said recently: "It is not extravagant to say that although there were but two million people in the thirteen American colonies at the time of the American revolt, yet from among those two millions of people there proceeded at that epoch a group of statesmen that might defy the whole history of the world to beat them in any one state and at any one period of time. Such were the consequences of a well-regulated and a masculine freedom."

ROBERT BONNER makes a spirited answer to his critics, who accuse him of appropriating all the finest horseflesh in the country and doing nothing for the development of their speed. He shows that about all the fast horses that have come into his possession have improved their records since he owned them, and that he is doing about as much for the turf in this country as any man. Mr. Bonner's critics have evidently tackled the wrong man.

At Tyrone, it killed Yardmaster Adam Wolfgang, and probably fatally injured Robert Worley, a conductor of Altoona. The men were standing on the track and were struck by the engine. At Henns Creek she ran over and killed two unknown men supposed to be Hungarian laborers in the employ of the Pennsylvania railroad. They stepped out of their cabins onto the track directly in front of the engine and were run down and horribly mangled.

"THEY DO NOT SPEAK AS THEY PASS BY."

What does it mean? Why, simply this: Mr. Smith has been under Dr. Jones' treatment for Dyspepsia and overwork for nearly a year and has paid him several fat-bills, although he never got any better. One day a friend who had been cured by it, insisted on Smith's getting a bottle of Rogers' Royal Nervine. He did so under protest, saying he had "taken gallons of patent medicine with the result of doing more harm than good." But he made a mistake. Rogers' Royal Nervine cured him in less than two months, and now he says Dr. Jones is an old ignoramus and Dr. Rogers a benefactor to his race. This is why Mr. Smith and Dr. Jones "don't speak as they pass by," and this is but one of thousands of similar cases.

THE offer of $100,000 a year which a New York man has made to the Government for the privilege of placing advertisements upon the backs of postage stamps will hardly receive any serious consideration from the authorities at Washington. If it were accepted it would probably be followed by applications for advertising space on the walls of the halls of Congress, for the privilege of painting baking-powder signs on the sides of the new steel cruisers, or for permission to equip the regular army with transparencies setting forth the merits of various brands of scouring soap. The postage stamp advertising scheme won't go. It is not new, an English advertiser having vainly tried to arrange a similar contract with the British Government years ago; and it won't work in this country.

THE HOLIDAY TRADE.

GREAT ATTRACTIONS FOR CHRISTMAS AND NEW YEARS.

In our New Store we can make a much handsomer display of our Christmas goods than in the old place. All our fancy Christmas presents show off to a much better advantage, and in order to accommodate all our customers we have laid in an immense stock of all kinds of holiday goods.

We have a large stock of Plush Albums of different shades and sizes ranging from 50c to $3.50. Fancy Silk Plush Velvet Toilet sets, 75c to $2.00. Large Wax Dolls and China Dolls in all sizes from 5c up to 70c. Fancy Tea Sets for children. Boy's Drums, Guns and Pistols, Balls, A. B. C. Blocks, Horses, Carts, Lions, Elephants, Tigers, Dogs and Cats, Jumping Jacks, Music Boxes and a thousand other things for Christmas and New Years, and

CHRISTMAS TREE CANDLES

We have an immense supply and this year at extremly low prices, 15c a Box.

AND IN OUR TEA, COFFEE AND SUGAR DEPARTMENT

Our increase in them is very great since removing to the new place. The high price of Coffee is inducing a good many to use Teas, as there has been no advance in them, in fact Teas are lower now than they have ever been in the history of the trade, a good Tea can now be bought for 20c per pound, this is the same price as a pound of Rio Coffee and it will go twice as far. Our very best Tea is 50c per pound, just the same goods that sold a few years ago at $1.00 per pound. We also have a common Japan Tea as low as 10c per pound, this we sell little of, our best goods are so cheap that most of the trade prefer the best.

Young Hyson Tea 20c lb, choice 30c and 40c lb, best 50c lb.
Gun powder Tea, very choice, 30c lb, best 50c lb.
Oolong or Black Tea, 20c lb, 30c lb, best 50c lb.
Imperial Tea, choice 30c lb, very best 50c lb
Japan Tea, common 10c lb, choice 30c lb, best 50c lb.

The 30c Japan Tea can not be beat. In fact, it will make as good a draw as the 50c, and few can tell the difference. It is sweet, high flavored and a rich drawing Tea. It is a lot of 50 chests we purchased of a New York house in closing out at half the usual price. No charge for trying it. You will try two pounds in place of one when you once see it.

THE SUGAR MARKET

In consequence of the movements of the sugar trust, sugar has been subject to severe fluctuations and the rises in 90 days was equal to 40 per cent, but in the last 30 days the tendencdcy has been downward, and we have reduced all goods 1c lb, from the highest point we quote now:

Crushed and Powdered, 8c lb. Cut Loaf and Granulated, 8c lb.
Standard Coffee A., 7½c lb. Choice Yellow Extra C., 6c lb.

COFFEE, RIO AND JAVA.

The same influences that governed the sugar market has also controlled the coffee—viz—a coffee trust and the price has been advanced and maintained the last year, in the face of a large crop and abundant supplies. A GIGANTIC SCHEME.

A Land and Improvement Company to be Organized With an Object to Boom the City.

To-night, at the rooms of the Tri-State Building and Loan association, an effort will be made to organize the Fort Wayne Land and Improvement company, for a gigantic purpose.

Hearing that Messrs. F. P. Randall and D. N. Foster were interested in the projected organization, a SENTINEL reporter interviewed them to-day. Said Mr. Foster:

"Yes, sir; the company will be organized to-night."

"What will your capital stock be placed at?"

"The capital stock will be $300,000."

"What will be the object and intention of the company?"

In substance Mr. Foster stated that already options have been secured for the company on property as follows:

One hundred and eighty acres belonging to Mrs. Lurce, situated immediately opposite the new Columbia street bridge, the purchase price being $75,000.

One hundred and sixty acres known as Stephen C. Taber's piece, just north of Lurce's.

Three hundred and twenty-five acres belonging to Fred Hayden, and situated northeast of Taber's, extending to St. Joe river.

Also an option on the Mrs. Henry Hanna's farm of 160 acres, and other pieces. It is proposed to start a park and boulevard at the new bridge, the boulevard to extend down along the east bank of the Maumee river. Out near the powder houses on the Maysville pike will be a lake to cover thirty two acres. The boulevard, too, will extend along the banks of the lake and through the Hayden and Taber groves and around to the St. Joe river. Bordering upon this continuous boulevard will be a park varying in width and embracing in all 150 acres.

It is the object of the company to do all of this and then upon the remainder of the ground lay out lots—city lots, too, for the company expect to have their property annexed. Whoever acquires lots must build upon them, and such dwellings as are erected must be put up at a specified cost sufficient to assure a handsome as well as comfortable structure.

This little villa will also have street cars and electric lights.

The land in question has charming surroundings and is conveniently located to the commercial center and yet just distant enough to escape the excitement of the city. The company would positively do the city a great benefit to accomplish the end they are seeking.

At the meeting to-night a large number have been invited. Mr. Foster said, as he left the reporter, "Please say that this meeting is open to every citizen who desires to attend."

There will no doubt be a large attendance.

THE phonograph has not yet been reduced to that simplicity and perfection of operation necessary for its general sale and introduction. It is true several examples have been produced which are in use, and many interesting experiments have been made. At the Paris exhibition the instruments were shown in operation, and the perfection of the results in recording and delivering speech was marvelous. But in most cases, in order to get really satisfactory results, experts are required to watch, adjust and work the instrument. When the phonograph becomes entirely automatic its future is assured.

THE scheme of the Hungarian Government, already in operation, of buying up taverns throughout the country and turning them into school-houses will be watched with interest in all countries. Of course it comprehends certain paternal measures which could be practiced only in monarchical countries, but it is a bold and interesting experiment in social science, none the less. The government evidently buys up the places for a valuation fixed by a commission and then suppresses them. The endeavor has a noble ring to it, and was evidently suggested by a humanitarian of most practical turn.

A GIGANTIC SCHEME.

A Land and Improvement Company to be Organized With an Object to Boom the City.

To-night, at the rooms of the Tri-State Building and Loan association, an effort will be made to organize the Fort Wayne Land and Improvement company, for a gigantic purpose.

Hearing that Messrs. F. P. Randall and D. N. Foster were interested in the projected organization, a SENTINEL reporter interviewed them to-day. Said Mr. Foster:

"Yes, sir; the company will be organized to-night."

"What will your capital stock be placed at?"

"The capital stock will be $300,000."

"What will be the object and intention of the company?"

In substance Mr. Foster stated that already options have been secured for the company on property as follows:

One hundred and eighty acres belonging to Mrs. Lurce, situated immediately opposite the new Columbia street bridge, the purchase price being $75,000.

One hundred and sixty acres known as Stephen C. Taber's piece, just north of Lurce's.

Three hundred and twenty-five acres belonging to Fred Hayden, and situated northeast of Taber's, extending to St. Joe river.

Also an option on the Mrs. Henry Hanna's farm of 160 acres, and other pieces. It is proposed to start a park and boulevard at the new bridge, the boulevard to extend down along the east bank of the Maumee river. Out near the powder houses on the Maysville pike will be a lake to cover thirty-two acres. The boulevard, too, will extend along the banks of the lake and through the Hayden and Taber groves and around to the St. Joe river. Bordering upon this continuous boulevard will be a park varying in width and embracing in all 150 acres.

It is the object of the company to do all of this and then upon the remainder of the ground lay out lots—city lots, too, for the company expect to have their property annexed. Whoever acquires lots must build upon them, and such dwellings as are erected must be put up at a specified cost sufficient to assure a handsome as well as comfortable structure.

This little villa will also have street cars and electric lights.

The land in question has charming surroundings and is conveniently located to the commercial center and yet just distant enough to escape the excitement of the city. The company would positively do the city a great benefit to accomplish the end they are seeking.

At the meeting to-night a large number have been invited, Mr. Foster said, as he left the reporter, "Please say that this meeting is open to every citizen who desires to attend."

There will no doubt be a large attendance.

They were arrested by Marshal Spencer, who arraigned them before 'Squire Flick, who very promptly assessed a fine of $5 and costs, with some stern advice thrown in.

THE phonograph has not yet been reduced to that simplicity and perfection of operation necessary for its general sale and introduction. It is true several examples have been produced which are in use, and many interesting experiments have been made. At the Paris exhibition the instruments were shown in operation, and the perfection of the results in recording and delivering speech was marvelous. But in most cases, in order to get really satisfactory results, experts are required to watch, adjust and work the instrument. When the phonograph becomes entirely automatic its future is assured

THE scheme of the Hungarian Government, already in operation, of buying up taverns throughout the country and turning them into school-houses will be watched with interest in all countries. Of course it comprehends certain paternal measures which could be practiced only in monarchical countries, but it is a bold and interesting experiment in social science, none the less. The government evidently buys up the places for a valuation fixed by a commission and then supplies them. The endeavor has a noble ring to it, and was evidently suggested by a benevolent despotism of a practical turn.

IT has been suggested by a clever inventor that the big hat at the theatre problem can be solved by a very simple mechanical device. In the ceiling of the audience room, over each seat, have a little spring roller like the reel on a fishing rod. On this have a thread the end of which hangs a pair of self acting nippers. When the curtain goes up an automatic arrangement will set each spring roller in action, the nippers will descend and grab the big hats, and presto change! every one will be snapped up to the ceiling and remain suspended there until the close of the performance, when they will descend and settle on the owners' heads.

CARSON LAKE, whose death as a drunkard in Pueblo, Col., was noted in our telegraph columns yesterday, was at one time a minister of the gospel at Pierceton, on the Pittsburg road, near Warsaw, this state. He was a brilliant young man and run worked his ruin then. He reformed and lived a useful life for years, but at last fell a victim to its fascinating influence. His life is a temperance lesson more powerful than any orator could speak it.

A REMINISCENCE.

An Actor Recalls Incidents of Edwin Forrest, the Tragedian.

Edwin Forrest, a few years before his death, was playing an engagement in a circuit which included Kansas City and St. Joseph, Mo. Milton Nobles, who was a member of the supporting company, relates the following, which conveys a capital idea of the "old man's" ghoulish humor. In Kansas City, the old fashioned tormentor door had a bottom moulding about five inches high, which was too much by about three inches, for the tragedian's gouty feet and legs. However, it was a stationary affair, nailed to the floor, and receiving his cue, he worked his left foot out in good shape, but in attempting to drag the right after it, he was'nt so successful, and stumbled on the stage and was caught on the fly by the leading man. Those who were familiar with the great tragedian's peculiarity in his latter years, can readily imagine the unique specimens of suppressed vocal pyrotechnics which followed the incident. The following night the company played in St. Joseph.

The Night Owls gave a clean show at the Temple, much to the chagrin of some few, who expected it to be otherwise. The costumes were rich and handsome, the grouping good and the specialties enjoyable. The show did not have the audience it deserved. The party left for Findlay to-day.

Last night three youngsters, ranging in ages from 12 to 14 years, appealed to the keeper at Liggett's livery stable for lodging. The little fellows were lightly clad so the kind-hearted stableman gave them a nice warm bed on a pile of straw.

This morning they were handed over to the authorities. They gave their names as Alfred Smeads, Johnnie Wise and Otto Campbell. According to their own story they had run away from the Soldiers and Sailors Orphans Home at Knightstown, to see the world. Their trip to this city was made by stealing rides on freight trains and walking, and they concluded that they had seen about all of the world they cared to until they grew older and wiser.

The trio was given into custody and the authorities at Knightstown informed of the whereabouts of the runaways.

Smead's home was at Auburn, Wise's at Knightstown, and Campbell's at Muncie.

The superintendent will send a man to take the boys back or will instruct the sheriff who is caring for them.

PRESIDENT HARRISON learned his letters from Henrietta R. Giesy (then Hoot), a governess for a year in his father's family in 1838 and 1839. Mrs. Giesy now lives in Columbus, Ohio.

The best examples of still life are in the "moonshine" districts of the south.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past obliges us to admit that only one remedy has met these conditions, and that is Ely's Cream Balm. This pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms yield to it.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

THE MYSTIC CIRCLE.

The Supreme Deputy in the City to Organize a Lodge.

Next Friday evening a lodge of the Mystic circle will be organized in this city.

Mr. R. L. Stoughton, of Columbus, Ohio, who is district supreme deputy of the order, arrived in the city last night and is now engaged with several interested gentlemen in getting things in shape.

The order will have a fraternal insurance feature and the prospects are favorable for completing a successful organization.

WILL HAVE PAVEMENTS.

The Council to Go Into the Question Without Delay.

The question of paving the streets has been agitated so freely and the necessity for it has become so manifest that the councilmen from the different wards are preparing issues to appeal in behalf of such improvements to the citizens in their respective wards.

The next meeting of the council will be an interesting one on this account.

The civil engineer's office has been besieged from time to time by persons discussing this very important matter.

Councilmen Cran and Bandt, of the Sixth ward, are sanguine that they will get a pavement on West DeWald street, while other councilmen are equally assured of success.

Councilman Read, of the Third ward, said to a SENTINEL reporter to-day: "There is no question but that the city will have new pavements. She must have them."

"Do you think the question will come to an issue with the council soon?" asked the reporter.

"I do; and very soon, too."

If the city is to have new pavements it is probable that the fire brick will have a consideration among the rest. It is said to be cheap and durable.

It is dangerous to let a man die in a hotel in Paris. A queer French law enables the landlord to present his bill to the relatives for the death. Seven hundred francs was the item recently demanded from an American family for the decease of one of its members in a well-known hotel. This extortion would have been three times as great if the person had died of a contagious disease, and doubled if the deceased was a prince or a member of any rich old aristocratic family. The allowances by the judges, however, are generally much less than the claims of the landlords.

In an address to a workingmen's organization Mr. Gladstone said recently: "It is not extravagant to say that although there were but two million people in the thirteen American colonies at the time of the American revolt, yet from among those two millions of people there proceeded at that epoch a group of statesmen that might defy the whole history of the world to beat them in any one state and at any one period of time. Such were the consequences of a well-regulated and a masculine freedom."

ROBERT BONNER makes a spirited answer to his critics, who accuse him of appropriating all the finest horseflesh in the country and doing nothing for the development of their speed. He shows that about all the fast horses that have come into his possession have improved their records since he owned them, and that he is doing about as much for the turf in this country as any man. Mr. Bonner's critics have evidently tackled the wrong man.

The Kerr Murray works began operations again yesterday after invoicing.

Road Foreman of Engineers A. H. Polhamus went to Chicago last night.

Emmet Dendy, of the moulding department of the Jenney, has resigned.

The machinists at the Bass works are now working until 10 o'clock at night.

Foreman William Rodgers, of the Pittsburg shops, remains on the sick list.

P. E. Mills, of the East Pittsburg car shops, has returned to work after an illness.

Foreman B. Fitzpatrick, of the Pittsburg machine shops, is on duty after an illness.

Alex White began work at the office of White's wheel works, yesterday morning.

The Lake Shore people have ceased to sell five thousand-mile books until further notice.

F. Meir, carpenter of the east yard shops, has returned to work after a two weeks' vacation.

The 2,000-light plant was shipped by the Jenney to the Cincinnati Gas Light company to day.

S. W. Jeffries, of Springfield, Ill., is the guest of Master Mechanic Morris, of the Wabash, at the Aldine.

R. Holland, of the East Pittsburg car shops, has returned from Crestline, where he has been on a visit.

Fifteen engineers on the northern division of the Grand Rapids road are off duty on account of illness.

The engine completing the order of the Pittsburg for 1889, was turned out of the Pittsburg shop Saturday last.

The five trainmen injured in the recent railway collision at Kokomo are improving rapidly and will all recover.

L. R. Buchwalter, of the Pittsburg machine shops, is off duty. He had a tumor removed from his scalp yesterday.

John N. Kessen, Richard Norkwald and Henry Volmerding, of the Bass moulding rooms, are off duty on account of illness.

E. A. Ford, general passenger agent of the Pennsylvania lines west of Pittsburg, is expected home from the Pacific coast this week.

"Davie" Druhot, of the Bass moulding shop, is off duty on account of illness. It is said he has a genuine attack of la grippe.

In the year 1889 not a passenger, an employee or person stealing a ride was killed on the Cincinnati, Hamilton and Indianapolis road.

Brakeman Ball, of the Grand Rapids and Indiana railroad, living at 169 Hanna street, mashed his hand at Winchester Sunday, while coupling cars.

Foreman S. C. Henderson, of the Pittsburg shops, is improving, but will not be able to report for duty for a month. He is still confined to his bed.

Bartholomas O'Leary is regaining the use of his arm after a severe attack of gangrene. He was injured at Kendallville, on the Grand Rapids and Indiana road.

H. B. Woolsey, foreman at the Olds works, returned to duty this morning, but was compelled to quit on account of illness, from which he has been suffering during the last few days.

William Rodehearer, superintendent of White's wheel works, had an experience with burglars Sunday evening. They attempted to enter his residence, but were frightened away by Mrs. Rodehearer.

William Amick, of Scottsburg, has compromised his suit against the Pennsylvania company by accepting $1,500. He brought suit for damages sustained by a stick of wood falling upon him from a passing train.

Clerk Frank Sweringen, of the Pittsburg shops, was injured yesterday by a piece of steel flying into his eye. The unwelcome visitor was removed but it left the eye in an inflamed condition. He remains on duty, however.

Wm. Kline, superintendent of telegraph on the Muncie, was with General Superintendent Canniff last Saturday, on his tour of inspection of the company's property here. The officials were highly pleased with the improvements made in the way of new buildings.

An insane man named Charles Smith, of Brooklyn, N. Y., became violent on the Nickel Plate passenger last Saturday night at Fostoria, and the conductor was compelled to put him off the train. He was locked up in the police station and word was sent to his sister in Brooklyn.

The mail train on the Pennsylvania road when nearing Pittsburg yesterday, made a record for itself. At Tyrone, it killed Yardmaster Adam Wolfgang, and probably fatally injured Robert Worley, a conductor of Altoona. The men were standing on the track and were struck by the engine. At Henns Creek she ran over and killed two unknown men supposed to be Hungarian laborers in the employ of the Pennsylvania railroad. They stepped out of their cabins onto the track directly in front of the engine and were run down and horribly mangled.

In 1889 twenty five roads were sold at foreclosure, comprising 2,930 miles of track, and with capital stock and funded debt of $137,815,000. During the same time twenty-two roads, with 3,500 miles of track, $84,702,000 funded debt and $99,654,000 capital stock went into the hands of receivers.

"We Point With Pride"

To the "Good name at home," won by Hood's Sarsaparilla. In Lowell, Mass., where it is prepared, there is more of Hood's Sarsaparilla sold than of all other medicines, and it has given the best of satisfaction since its introduction ten years ago. This could not be if the medicine did not possess merit. If you suffer from impure blood, try Hood's Sarsaparilla and realize its peculiar curative power.

"THEY DO NOT SPEAK AS THEY PASS BY."

What does it mean? Why, simply this: Mr. Smith has been under Dr. Jones' treatment for Dyspepsia and overwork for nearly a year and has paid him several installments, although he never got any better. One day a friend who had been cured by it, insisted on Smith's getting a bottle of Rogers' Royal Nervine. He did so under protest, saying he had "taken gallons of patent medicine with the result of doing more harm than good." But he made a mistake. Rogers' Royal Nervine cured him in less than two months, and now he says Dr. Jones is an old ignoramus and Dr. Rogers a benefactor to his race. This is why Mr. Smith and Dr. Jones "don't speak as they pass by," and this is but one of thousands of similar cases.

THE offer of $100,000 a year which a New York man has made to the Government for the privilege of placing advertisement upon the backs of postage stamps will hardly receive any serious consideration from the authorities at Washington. If it were accepted it would probably be followed by applications for advertising space on the walls of the halls of Congress, for the privilege of painting baking-powder signs on the sides of the new steel cruisers, or for permission to equip the regular army with transparencies setting forth the merits of various brands of scouring soap. The postage stamp advertising scheme won't go. It is not new, an English advertiser having vainly tried to arrange a similar contract with the British Government years ago; and it won't work in this country.

CHRISTMAS TREE CANDLES

We have an immense supply and this year at extremely low prices, 15c a Box.

AND IN OUR TEA, COFFEE AND SUGAR DEPARTMENT

Our increase in them is very great since removing to the new place. The high price of Coffee is inducing a good many to use Teas, as there has been no advance in them, in fact Teas are lower now than they have ever been in the history of the trade, a good Tea can now be bought for 20c per pound, this is the same price as a pound of Java coffee used to sell for as far. Our very best Tea is 50c per pound. Just the same goods that sold a few years ago at $1.00 per pound. We also have a common Japan Tea as low as 10c per pound, this we sell little of, our best goods are so cheap that most of the trade prefer the best.

Young Hyson Tea 20c lb, choice 30c and 40c lb, best 50c lb.
Gun powder Tea, very choice, 30c lb, best 50c lb.
Oolong or Black Tea, 20c lb, 30c lb, best 50c lb.
Imperial Tea, choice 30c lb, very best 50c lb
Japan Tea, common 10c lb, choice 30c lb, best 50c lb.

The 10c Japan Tea can not be beat. In fact, it will strike as good a drink as the 50c, and few can tell the difference. It is sweet, high flavored and a rich drinking Tea. It is a lot of 50 chests we purchased at a New York house in closing out at half the usual price. No charge for trying it. You will try two pounds in place of one when you once see it.

THE SUGAR MARKET

in consequence of the movements of the sugar trust, sugar has been subject to severe fluctuations and the rises in 90 days was equal to 30 per cent, but in the last 30 days the tendency has been downward, and we have reduced all goods to a, from the highest point we quote now:

Crushed and Powdered, 8c lb. Cut Loaf and Granulated, 8c lb.
Standard Coffee A., 7½c lb. Choice Yellow Extra C., 6c lb.

COFFEE, RIO AND JAVA.

The same influences that governed the sugar market has also controlled the coffee—viz.—a coffee crisis, and the price has been advanced the last week, in the face of a large crop and abundant supplies. There is now a prospect of a declining market. We are still selling our coffees a below the market prices:

Choice Green Rio, 20c lb; Best Old Government Java, 27c lb; Choice Roasted Rio, 23c lb; Best Roasted Package Sampson Brand, 30c lb; 3c per Coffee Roasted in Packages, 25c lb; Leverings Coffee, Roasted in Packages, 25c.

CALIFORNIA FRUITS CANNED AND DRIED.

California Dried Apricots, 20c lb; Cali'nia Peeled Peaches, 25c lb; California Nectarines, 20c lb; California Unpeeled Peaches, 12½c; California Silver Prunes, 12½c; California Pitted Plums, 15c lb; California Canned Peaches, Extra Cans, 25c can; California Apricots, can, 25c; California Bartlett Pears, 25c can; California Green Gages, 25c can; California Egg Plums, 25c can; California White Cherries, 25c can.
